

# PREMIUM PETE

## DADDY PETE'S BARNYARD FERTILIZER

Daddy Pete's Barnyard Fertilizer is a pelleted lawn and garden fertilizer for all 4 seasons: spring, summer, fall, and winter. It adds essential organic matter to your soil while fertilizing your lawn or gardening project. It is made of Daddy Pete's Composted Dairy Cow Manure and Daddy Pete's Composted Chicken Manure.

The beneficial micro-organisms provided by Daddy Pete's Barnyard Fertilizer allow nutrients to become more available for the plant, and can aid in defending plants against viral, fungal, pathogenic, root, vascular, and foliar diseases. As these beneficial micro-organisms are depleted out of the soil over time, and to avoid soil compaction and to replenish nutrients, it is recommended to apply Daddy Pete's Barnyard Fertilizer every 3-4 months throughout the year to maintain a healthy soil environment for your lawn or garden.

## INGREDIENTS

- DADDY PETE'S COMPOSTED COW MANURE
